

# MAYA ERUSALIMSKY

## QA Automation Engineer

[mayageval1@gmail.com](mailto:mayageval1@gmail.com) | 054-446-0415 | [linkedin.com/in/maya-eru](https://www.linkedin.com/in/maya-eru) | Israel

### SUMMARY

Junior Software Developer with a B.Sc. in Computer Science, specializing in web development. Brings a unique advantage from 1.5 years as a QA Automation Engineer — writing production-quality TypeScript and Python code, working closely with developers in Agile/Scrum teams, and thinking critically about code correctness and edge cases. Experienced with Git workflows, CI/CD pipelines, and AI-assisted development tools.

### WORK EXPERIENCE

#### QA Automation Engineer · Kissterra

2025–2026

- Designed and developed E2E automation test suites using Playwright and TypeScript, covering critical user flows across web and API layers.
- Built and maintained API test frameworks validating backend integrations, catching regressions before production.
- Managed test cases, bug reports, and QA workflows in JIRA throughout the full feature development cycle.
- Embedded in a cross-functional Agile/Scrum team with developers and product managers — participated in sprint planning, reviews, and retrospectives.
- Collaborated via Git: branched, reviewed, and opened pull requests with clear documentation for the dev team.
- Leveraged AI-assisted tooling (Cursor for code generation, MCP-Git for automated PR creation) to accelerate day-to-day automation workflows.
- Acted as quality gatekeeper at release — verified build stability and approved features before deployment.

### EDUCATION

#### B.Sc. Computer Science · College of Management Academic Studies

2023–2025

- Specialized in web development — built full-stack web applications using JavaScript, TypeScript, HTML, and CSS.
- Coursework included algorithms, data structures, software engineering, databases, and systems design.

### TECHNICAL SKILLS

- **Automation & Testing:** Playwright · TypeScript · API Testing · E2E Testing · Regression Testing
- **Backend & Systems Exposure:** CI/CD pipelines · AWS (environment usage) · Postman (basic–intermediate) · WebSocket (academic)
- **Tools:** Jira · Git / GitHub · CI systems · AI-assisted development tools
- **Methodologies:** Agile / Scrum · SDLC · Bug lifecycle management

### ADDITIONAL

#### FIRST Robotics Competition (FRC) — Robotics Team Member International Competitions, USA

Competed in international FRC tournaments in the US as part of FIRST Israel — a global nonprofit advancing STEM education for youth. Designed, built, and programmed robots through full engineering cycles: requirements, design, build, test, and debug.

### LANGUAGES
